

Precision Fabrics Group

Essential Business

To our loyal and dedicated Associates. Precision Fabrics would like to thank each and everyone one of you for your continued efforts in sustaining our business. We engineer highly mission-critical fabrics both Woven and Nonwoven that include personal protective medical gear (e.g. masks, drapes, gowns), wipes to the pharmaceutical industry and personal hygiene fabrics for the consumer products sector.

The production of these items is essential to maintain the infrastructure needed to successfully fight COVID-19. It is imperative that we continue to supply products to our customers in the Medical community, the military, and pharmaceutical industry. Your continued efforts to show up for work each day are truly appreciated and **YOU** are making a significant difference in this healthcare crisis.

As an Essential Business we are allowed to continue operations under “Stay at Home” and similar orders issued by local and city governments. We have no plans to stop operations at any of our facilities. We will continue to operate in a safe and healthy manner as directed by the CDC.

Once again, thank you for your continued efforts as we fight this universal virus. As we have stated so many times before, our Associates are and will always be, the definition of our success.

Warm healthy regards,

A handwritten signature in blue ink, appearing to read 'Walt Jones', is positioned above the printed name.
